Statement of Solidarity with Gaza People Rajshahi University of Engineering & Technology (RUET)

In the face of the ongoing genocide and destruction in Gaza, where countless innocent women and children are being brutally killed, Rajshahi University of Engineering & Technology (RUET) expresses its profound sorrow and outrage.

On this day, April 7, 2025, RUET stands in solidarity with the “Global Strike for Gaza” and declares that the time has come for every conscious human being around the world to rise against the genocide in Gaza.

While the world moves forward in development, science, and welfare, a single region remains under siege, where millions—especially women and children—are subjected to relentless violence. This is not just a political issue; it is a matter of humanity.

We firmly demand:

- **An immediate end to the genocide and aggression in Gaza**
- **Protection of the lives and rights of women and children**
- **Concrete action from the international community**

Rajshahi University of Engineering & Technology stands steadfast for humanity, justice, and peace. We believe that the life of every human being—regardless of geography—is equally valuable.

End the killing in Gaza. Let humanity prevail.
We stand united in the Global Strike.

– The RUET Family
